# The Latest Trends

is buzzing over these cool new polishes

## Textured Embellishment

Fingertips get fashion-forward with textured finishes. This two-step polish and micropearl overlay, which mimics the look of caviar, has us drooling. (Tip: A top coat seals pearls in place so the effect lasts longer.)

WIREIMAGE STILL LIFE: HBB

## Hologram Effects

Love Minx but can't find the time (or money) to get them done at the salon? These 3-D hologram lacquers, available in eight iridescent shades, deliver the same futuristic fabulousness at a fraction of the cost.

Layla Cosmetics Hologram Effect Nail Polish in Coral Glam, Ultra Violet and Ocean Rush, \$15 each, [ulta.com](http://ulta.com)

## All-in-One Design

Genius! Everything you need to create a salon-worthy mani is right at your fingertips with this all-in-one offering. On the top half of the package is polish, while the bottom half holds a mini nail file and 40 presoaked remover pads in a refillable container. It's our go-to polish when traveling!

## Polish With a Purpose

We used to be skeptical of products that claim to treat and cure nail problems caused by bacteria and fungus. But we tested this patent-pending system, and it really works!

Seven natural ingredients found in the oil, primer and polishes restore nails to a healthy state.
